PROFESSIONAL SUMMARY

Information Technology undergraduate graduating in 2027 with hands-on experience in web development, software products, databases, cloud platforms, and cross-functional project collaboration. Strong ability to understand technical requirements, research products and technologies, analyze business needs, and communicate technical concepts to technical and non-technical audiences. Experienced in frontend development, REST APIs, database-driven applications, cloud fundamentals, and product documentation. Seeking a **Tech Sales, Business Development, or Growth Internship** to apply technical knowledge to customer engagement, market research, lead generation, product positioning, and technology-driven business growth.

TECHNICAL SKILLS

Programming: Java, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, Angular, Vite, Tailwind CSS, Chart.js

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, SQL, Database Management Systems (DBMS)

Cloud & Tools: Google Cloud Platform (GCP), Git, VS Code, Postman, Google Workspace, Microsoft Excel, Microsoft Office

Core Computer Science: Object-Oriented Programming, Data Structures & Algorithms, Computer Networks, Operating Systems

Business & Professional: Technical Communication, Product Research, Market Research, Requirement Analysis, Business & Product Understanding, Presentation, Documentation, Analytical Problem-Solving, Team Collaboration

EDUCATION

Bachelor of Technology in Information Technology

Narula Institute of Technology, Kolkata, West Bengal

Expected Graduation: 2027

Relevant Coursework: Database Management Systems, Web Technologies, Object-Oriented Programming with Java, Computer Networks, Operating Systems

PROJECTS

Family Health Tracker — FamPlus

Frontend Lead | React.js, Vite, Tailwind CSS, Chart.js, REST APIs

- Developed a web-based family health tracking platform designed to organize health information and monitor vital parameters.
- Built responsive and user-focused interfaces using **React.js, Vite, and Tailwind CSS**.
- **Implemented user authentication**, family dashboard, symptom checker, and health-vitals data entry workflows.
- **Integrated Chart.js** to visualize blood pressure, blood sugar, and weight data for easier health monitoring.
- **Collaborated with backend, AI/ML, and integration team members** to connect frontend workflows with REST APIs.
- Contributed to project documentation, project presentation, deployment, testing, and overall application integration.
- **Translated functional requirements** into application workflows and coordinated implementation across multiple technical components.

TRAINING & VIRTUAL INTERNSHIPS

Java Full Stack Development Virtual Intern — EduSkills Foundation

- Developed practical knowledge of **Java-based application development, backend logic, SQL, and database-driven software systems**.
- Worked with structured technical requirements and modular application architecture.
- Strengthened understanding of enterprise software workflows, data handling, and full-stack development concepts.
- Applied programming and database concepts to understand how technical solutions support business requirements.

MEAN Full Stack Development Trainee — Ardent Computech Pvt. Ltd.

- Studied end-to-end web application architecture using **MongoDB, Express.js, Angular, and Node.js**.
- Worked with client-server communication and REST API data exchange concepts.

- Developed understanding of frontend-backend integration and database-driven application workflows.
- Strengthened knowledge of enterprise web technologies and software product architecture.

Google Cloud Arcade Program — Participant

- Completed hands-on cloud labs involving **virtual machine deployment, IAM configuration, and cloud storage**.
- Developed foundational knowledge of cloud infrastructure, access management, security permissions, and cloud-hosted applications.
- Gained practical exposure to Google Cloud services and modern cloud deployment concepts.

KEY COMPETENCIES

Technical Communication | Product & Technology Research | **Market & Business Research** | **Requirement Understanding** | Analytical Problem-Solving | Product Understanding | Customer-Oriented Communication | Presentation & Documentation | Cross-Functional Collaboration | Adaptability & Fast Learning

CAREER INTERESTS

Tech Sales | **Business Development** | **Growth** | SaaS | Technology Consulting | Product Management | Customer Success
